

# Scout FOR SITES

**Let Scout be your guide.**

## Patient Payments, Travel & Logistics

Running a clinical trial is no small feat. With real people on standby and three decades of experience in 100+ countries, Scout's on-call and in your corner.

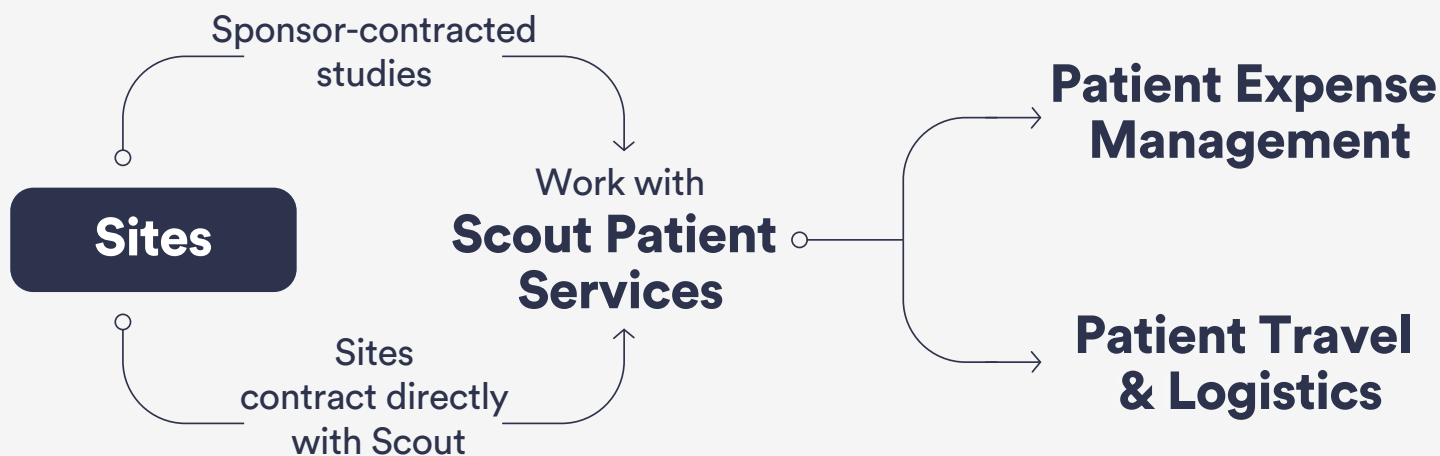

### Patient Expense Management

- Payments, stipends & reimbursements
- Bank transfers, digital wallets, check & debit cards
- Automatic payment processing
- Expense compliance validation

### Patient Travel & Logistics

- Air, ground & rail transportation
- Short & long-term accommodations
- Visa application assistance

## Simplifying Your Operations

### Around-the-Clock Support

Issue resolution when you need it: Our Patient Liaisons are available 24/7, because nothing ever goes wrong 'til after 5:00 pm on a Friday.

### Flexibility that Fits

Think à la carte, **not** all-or-nothing. Pick what works best for your site and patients. We'll meet you where you're at.

### Patient-Accessible Portal

Give patients control over their requests—fostering trust, paring down site tasks, and enhancing study engagement.

## Supporting Your Bottom Line

### Easy Contracting Options

We offer enterprise-level and per-protocol contracts. You select the option that makes sense for your operations.

### Scalable Pricing, Smart Support

There's no cost to sites through sponsor-contracted studies. For sites that contract directly with Scout, pricing adapts to transaction volume. We help sites develop budget line items to streamline sponsor approvals.

### Tax Compliance Made Simple

We handle IRS and international tax reporting and offer strategies to ease the impact of taxable participant payments.

## Trust is earned.

You wouldn't entrust your participants' care to just anyone. At Scout, we're committed to mitigating protocol deviations and making studies easier for **everyone** involved.

**Let us partner with you to reduce the burden and help your site succeed. Scan the QR code to connect today.**
